Mike,

Talked to Colonel Baker the Director wants Billy Spears to receive a counseling record for poor judgement for allowing "Snoop dog" a known drug user and felon for allowing his picture to be taken with him. If he does not like it Baker says he can appeal this to the Director. Apparently the boss was pissed over this.....wanted to cancel his secondary employment. (we can't do that but there was no changing his mind on the Hr-31) [REDACTED]
