To Whom It May Concern:

I am a blogger (LawFlog.com), and I was recently informed that several illegal immigrants were found working as employees in a restaurant on the state capitol grounds. I was informed that a theft was reported, and when DPS investigators interviewed employees, they discovered that the employees did not have U.S. identification.

I would like to know whether the foregoing information is correct. As permitted by the Texas Public Information Act, I request the opportunity to view all communications, documents or records (electronic or otherwise) regarding the circumstances described above. Thank you.

RE: Public Information Request for records related to an investigation into theft allegations from inside the Capitol Grill (PIR # 19-0653)

DATE REQUEST FOR INFORMATION RECEIVED: DATE REQUEST FOR RULING SUBMITTED TO ATTORNEY GENERAL:

2/11/2019 2/26/2019

Dear Open Records Division:

The Department of Public Safety received the above-referenced request for information from Jody Barr on February 11, 2019. Due to President's Day on February 18, 2019, our offices were closed; therefore, we believe this request for a ruling on disclosure is timely made in accordance with section 552.301 of the Government Code. We believe some or all of the requested information is excepted from required public disclosure pursuant to sections 552.101 and 552.108 of the Government Code. Accordingly, we are requesting a ruling regarding the release of these records.

A copy of the basic information has been provided to the requestor. As a result of the above-referenced incident, charges are pending against one or more individuals. Thus, the Department believes the requested information is excepted from required public disclosure pursuant to section 552.108(a)(1) of the Government Code, which states:

- (a) Information held by a law enforcement agency or prosecutor that deals with the detection, investigation, or prosecution of crime is excepted from the requirements of Section 552.021 if:
 - (1) release of the information would interfere with the detection, investigation, or prosecution of crime.

Because this is an ongoing criminal case, the release of potential evidence would interfere with the investigation and prosecution of this case. *See Houston Chronicle Publ'g Co. v. City of Houston*, 531 S.W.2d 177, 184-85 (Tex. Civ. App.—Houston [14th Dist.] 1975), *writ ref'd n.r.e.*, 536 S.W.2d 559 (Tex. 1976) (per curiam). Consequently, the Department believes these responsive records are excepted from required public disclosure at least until the criminal case is resolved.

Section 552.101 of the Government Code states that "[i]nformation is excepted from the requirements of Section 552.021 if it is information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Section 552.101 encompasses section 418.177 of the Government Code, which states, in relevant part:

Information is confidential if the information:

- (1) is collected, assembled, or maintained by or for a governmental entity for the purpose of preventing, detecting, or investigating an act of terrorism or related criminal activity; and,
- (2) relates to an assessment by or for a governmental entity, or an assessment that is maintained by a governmental entity, of the risk or vulnerability of persons or property, including critical infrastructure, to an act of terrorism or related criminal activity.

Critical infrastructure is defined as "all public or private assets, systems, and functions vital to the security, governance, public health and safety, economy, or morale of the state or the nation." Gov't Code § 421.001(2).

The marked records are assessments produced by the Department of the threats facing persons and property from acts of terrorism and related criminal activity. These assessments are created and maintained for the purpose of preventing, detecting, or investigating acts of terrorism or related criminal activity. Release of these records would cause significant harm to the efforts of law enforcement entities to detect, investigate, and prevent acts of terrorism and related criminal activity.

Additionally, the Department believes the marked records are excepted from required public disclosure pursuant to section 552.108(b)(1) of the Government Code, which states:

- (b) An internal record or notation of a law enforcement agency or prosecutor that is maintained for internal use in matters relating to law enforcement or prosecution is excepted from the requirements of Section 552.021 if:
 - (1) release of the internal record or notation would interfere with law enforcement or prosecution.

Section 552.108(b)(1) is intended to protect "information which, if released, would permit private citizens to anticipate weaknesses in [a law enforcement agency], avoid detection, jeopardize officer safety, and generally undermine [law enforcement] efforts to effectuate the laws of this State." *City of Ft. Worth v. Cornyn*, 86 S.W.3d 320 (Tex. App.—Austin 2002, no pet.). Your office has stated that under the statutory predecessor to section 552.108(b), a governmental body may withhold information that would reveal law enforcement techniques or procedures. *See, e.g.*, Open Records Decision Nos. 531 (1989) (release of detailed use of force guidelines would unduly interfere with law enforcement), 456 (1987) (release of forms containing information regarding location of off-duty police officers in advance would unduly interfere with law enforcement), 413 (1984) (release of sketch showing security measures to be used at next execution would unduly interfere with law enforcement), 409 (1984) (if information regarding certain burglaries exhibit a pattern that reveals investigative techniques, information is excepted under predecessor to section 552.108), 341 (1982)

(release of certain information from Department of Public Safety would unduly interfere with law enforcement because release would hamper departmental efforts to detect forgeries of drivers' licenses), 252 (1980) (predecessor to section 552.108 is designed to protect investigative techniques and procedures used in law enforcement), 143 (1976) (disclosure of specific operations or specialized equipment directly related to investigation or detection of crime maybe excepted).

Revealing these records would provide wrong-doers, drug traffickers, terrorists, and other criminals with invaluable information concerning facilities and infrastructure vulnerabilities, as well as threats to persons; the techniques used to investigate and detect suspected criminal activities; and how information is assessed and analyzed, all of which would allow these groups to anticipate the activities of law enforcement to detect, investigate, and prevent criminal activity. Consequently, the Department believes the marked records should also be excepted from required public disclosure under section 552.108(b)(1) of the Government Code.

Please find enclosed the request from Jody Barr, the notice of our request for a ruling sent to the requestor, and a representative sample of the records we wish to except from required disclosure. We are enclosing copies of the investigation report(s) we wish to withhold. In addition, we wish to withhold all records held as evidence in this case, which are described in the reports. In order to avoid unnecessarily compromising the chain of custody, we have not copied the evidentiary records. However, if you need to review these records in order to determine whether they can be withheld, please contact me immediately, and we will have copies made for you. Please feel free to contact me at (512) 424-2890 if you have any questions.

Sincerely,

Brian Sears Assistant General Counsel
