In other words, the CIA should produce all evidence indicating whether the CIA, its Directorate of Digital Innovation or any of the CIA's foreign or domestic affiliates, agents, employees or contractors inserted or fabricated evidence to make it appear that Russians or other third parties were responsible for the 2016 Data Breach. This includes, for example, any and all evidence that the Directorate of Digital Innovation created or operated the "Guccifer 2.0" or "DCLeaks" profiles or any other online profile used to promote or distribute data from the 2016 Data Breach.

If, for example, the CIA obtained any communications between Seth Rich and Julian Assange or Wikileaks (*e.g.*, from the National Security Agency, the United Kingdom's Government Communications Headquarters, or any other person or entity), then those communications should be produced. I also wish to view all documents, records, and/or communications indicating whether the task force / working group fabricated or

If, for example, individuals from the task force tried to create the false impression that Trump campaign officials were acting at the behest of Russian officials, any and all evidence of that should be produced.

(d) All data, documents, records, or communications regarding any person or entity’s attempt to hack into Seth Rich’s electronic or internet accounts (*e.g.*, email) after his death.

(e) All data downloaded from all electronic devices that belonged to Seth Rich as well as all data, documents, records or communications indicating how the devices were obtained and who was responsible for downloading the information.

(f) All data, documents, communications, records or other evidence indicating whether Seth Rich, Aaron Rich, or any other person or persons were involved in transferring data from the Democratic National Committee to Wikileaks in 2016, either directly or through intermediaries. This request includes, but is not limited to, any reports from CrowdStrike, Inc..

(g) All documents, records, or communications exchanged with Congress or any other government agencies (or representatives of such agencies) since January 1, 2016 regarding (1) Seth Rich's murder or (2) Seth Rich's or Aaron Rich's involvement in transferring data from the Democratic National Committee to Wikileaks.

If, for example, NSA intercepted or obtained any communications between Seth Rich and Julian Assange or Wikileaks (e.g., from the United Kingdom’s Government Communications Headquarters, or any other person or entity), then those communications should be produced. If the NSA has any evidence whatsoever that the DNC servers were hacked externally or that DNC data was leaked from an internal source, that evidence should be produced.

I request the opportunity to view all communications exchanged (either directly or indirectly) between Seth Conrad Rich (“Seth Rich”) and/or Aaron Nathan Rich (“Aaron Rich”) and the following: Julian Assange, Wikileaks, and/or any agents or representatives of Wikileaks.

As of this date, no responsive documents have been produced.

16. On June 12, 2020, the Plaintiff submitted a FOIA request to the FBI and the Justice Department’s National Security Division. A true and correct copy of that FOIA request is attached as Exhibit 8 and incorporated herein by reference. The letter quoted a *60 Minutes* interview of Asst. Attorney General Bill Demers and requested the following:

(a) All documents, records, communications, and other tangible evidence supporting Gen. Demers’s claims to *60 minutes* above, i.e., about Russian involvement in obtaining the DNC emails in 2016.

(b) All documents, records, communications, and other tangible evidence relied on by Gen. Demers, Adam Hickey, Sean Newell, and Heather Alpino in support of their conclusions that Russians were responsible for obtaining the DNC emails in 2016.

(c) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division concerning Seth Conrad Rich and/or Aaron Nathan Rich.

(d) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division concerning other entities or individuals who may have played a role in stealing, hacking, leaking or improperly obtaining the DNC emails in 2016.

(e) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division indicating whether the DNC emails were hacked externally, leaked from a source inside the DNC, or otherwise transmitted to third parties such as Wikileaks. If there was one or more than one instance of hacking, leaking, or other unauthorized transmission of DNC emails in 2016, please provide details for each such incident, *e.g.*, the dates, persons and entities involved, the data that was hacked, leaked, or otherwise transmitted, and the means by which it was hacked, leaked, or transmitted.

(f) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division or the FBI regarding whether Debbie Wasserman-Shultz or any other member of Congress was blackmailed or extorted, whether directly or indirectly, as a result of information procured by any of the following: Imran Awan, Abid Awan, Jamal Awan, Hina Alvi, Rao Abbas, or anyone affiliated with the government of Pakistan.

As of this date, no responsive records have been produced.

17. On June 18, 2020 the Plaintiff submitted a FOIA request to the CIA, FBI, Justice Department, and the National Security Agency. A true and correct copy of that FOIA request is attached as Exhibit 9 and incorporated herein by reference. The letter included the following requests:

(a) I request the opportunity to view all documents, records, communications

and/or other tangible evidence reflecting or pertaining to surveillance of Edward Butowsky of Texas or Matt Couch of Arkansas. The term “surveillance” includes, but is not limited to, any attempt to hack into the computers, phones, other electronic devices, and/or online accounts of Mr. Butowsky or Mr. Couch. If any information obtained by surveillance was relayed to third parties, that information should be produced for inspection.

(b) I request the opportunity to view all documents, records, communications and/or other tangible evidence pertaining to whether former Central Intelligence Agency Director David Petraeus mishandled classified information or sold such information during his tenure as CIA director. This request includes, but is not limited to, documents, records, communications and/or other tangible evidence in the possession of the Office of the Inspector General of the CIA and/or the Office of the Intelligence Community Inspector General. This request further includes, but is not limited to, any draft indictments, draft arrest warrants, actual arrest warrants, and/or records of arrest.

Thus far, no responsive records have been produced.

18. The Plaintiff alleges that career staff in the FBI, DOJ, CIA, NSA, and ODNI are trying to conceal and delay production of records about Seth Rich, Russian “hacking,” and Russian “collusion” until after the November 3, 2020 Presidential election, namely because the records will reveal that (1) Special Counsel Robert Mueller’s entire investigation of President Donald J. Trump was premised on fraud, and (2) government officials aided and abetted that fraud and engaged in criminal misconduct themselves. The foregoing agencies have previously deemed documents classified in order to conceal government misconduct, and the Plaintiff expects them to do the same in this case. Section 1.7 of Executive Order 13526, however, prohibits the use of classification for purposes of concealing wrongdoing.

Count 1

(Violation of FOIA, 5 U.S.C. § 552)

19. All prior paragraphs are incorporated herein by reference.

20. The Plaintiff is being irreparably harmed by the Defendants' violations of FOIA, and the Plaintiff will continue to be irreparably harmed unless the Defendants are compelled to comply with FOIA.

Request for Relief

21. The Plaintiff respectfully requests that the Court: (1) order the Defendants to conduct a search for any and all records responsive to the Plaintiff's FOIA requests and demonstrate that they employed search methods reasonably likely to lead to the discovery of records responsive to the Plaintiff's FOIA request; (2) order the Defendants to produce, by a date certain, any and all non-exempt records responsive to the Plaintiff's FOIA requests and a *Vaughn* index of any responsive records withheld under claim of exemption; (3) enjoin the Defendants from continuing to withhold any and all non-exempt records responsive to the Plaintiff's FOIA requests; (4) grant the Plaintiff an award of litigation costs reasonably incurred in this action pursuant to 5 U.S.C. §552(a)(4)(E); and (5) grant the Plaintiff such other relief as the Court deems just and proper.

Respectfully submitted,

Re: Freedom of Information Act Request

To Whom It May Concern:

I write on behalf of the The Transparency Project (“TTP”), a nonprofit corporation headquartered in Texas, to request information about the removal, transfer, copying or stealing of data from Democratic National Committee (hereinafter “DNC”) computer servers in 2016, data which was later published by Wikileaks.¹ That event will hereinafter be referred to as the “2016 Data Breach.” I make these requests under the authority of the Freedom of Information Act, 5 U.S.C. § 552.

1. I request the opportunity to view all metadata, communications (internal or external), records, documents, reports or other evidence regarding whether the CIA, its Directorate of Digital Innovation, or any of the CIA’s foreign or domestic affiliates, agents, employees or contractors played a role in inserting Russian “fingerprints” (*e.g.*, “COZY BEAR” or “FANCY BEAR”) into data from the 2016 Data Breach. In other words, the CIA should produce all evidence indicating whether the CIA, its Directorate of Digital Innovation or any of the CIA’s foreign or domestic affiliates, agents, employees or contractors inserted or fabricated evidence to make it appear that Russians or other third parties were responsible for the 2016 Data Breach. This includes, for example, any and all evidence that the Directorate of Digital Innovation created or operated the “Guccifer 2.0” or “DCLeaks” profiles or any other online profile used to promote or distribute data from the 2016 Data Breach.
2. I request the opportunity to view all tangible evidence indicating whether the 2016 Data Breach was the result of (1) outside forces (*e.g.*, Russian agents, Pakistani agents, etc.) who hacked the servers from a remote location or (2) an individual or individuals who were present at or inside DNC facilities and copied the data onto a storage device. If, for example, the CIA obtained any communications between Seth Rich and Julian Assange or Wikileaks (*e.g.*, from the National Security Agency, the United Kingdom’s Government Communications Headquarters, or any other person or entity), then those communications should be produced. If the CIA has any evidence whatsoever that the DNC servers were

hacked externally or that DNC data was leaked from an internal source, that evidence should be produced.

3. Former CIA Director John Brennan testified that in the summer of 2016, he convened a task force / working group involving the CIA, NSA and FBI to investigate intelligence showing contact between Russian officials and Trump affiliates. I wish to view all documents, records, and/or communications that (1) identify the name and agency affiliation of each member of the task force / working group as well as (2) the dates that each such person began and ceased working with the group. I also wish to view all documents, records, and/or communications indicating whether the task force / working group fabricated or attempted to fabricate evidence of collusion between Donald Trump (or his presidential campaign) and Russian officials. If, for example, individuals from the task force tried to create the false impression that Trump campaign officials were acting at the behest of Russian officials, any and all evidence of that should be produced.

I also seek the following information on behalf of TTP as permitted by the Freedom of Information Act:

4. For the period from January 20, 2009 until the present, I wish to see all documents, records, communications, and guidelines reflecting any plans or efforts by the CIA to gain, cultivate or exercise influence over any U.S. journalist or journalism entity. This request includes, but is not limited to, documents or communications that reflect an attempt to insert CIA personnel, contractors, or allies into such a company.
7. For the period from January 20, 2009 until the present, I wish to see all documents, records, communications, and guidelines reflecting any plans or efforts by the CIA to surveil journalists and/or journalism companies in the United States. This request includes, but is not limited to, (1) plans or efforts to hack into the computer systems, online accounts, or electronic devices of journalists or journalism companies in the United States, and (2) any

This request further includes, but is not limited to, documents, records, or communications identifying (1) the CIA affiliates, agents, employees or contractors involved in such activities, and (2) the targets of any such activities.

8. For the period from January 20, 2009 until the present, I wish to see all documents, records, communications, and guidelines reflecting any plans or efforts by the CIA to influence the contents of any entertainment production in the United States, *e.g.*, movies, television programs, radio programs, podcasts, Netflix productions, etc.

3. All data, documents, records, or communications (electronic or otherwise) created, received or obtained since January 1, 2016 that discuss or reference Seth Conrad Rich ("Seth Rich") or Aaron Nathan Rich ("Aaron Rich").
4. All data, documents, records, or communications regarding any person or entity's attempt to hack into Seth Rich's electronic or internet accounts (*e.g.*, email) after his death.
5. All data downloaded from all electronic devices that belonged to Seth Rich as well as all data, documents, records or communications indicating how the devices were obtained and who was responsible for downloading the information.

1. I request the opportunity to view all metadata, communications (internal or external), records, documents, reports or other evidence regarding whether the National Security Agency (“NSA”), the Central Intelligence Agency (“CIA”), any “Five Eyes” allies, and/or affiliates, agents, employees or contractors of those agencies or any other government entity played a role in inserting Russian “fingerprints” (*e.g.*, “COZY BEAR” or “FANCY BEAR”) into data from the 2016 Data Breach. In other words, the NSA should produce all evidence indicating whether any U.S. Government or “Five Eyes” entities, affiliates, agents, employees or contractors inserted or fabricated evidence to make it appear that Russians or other third parties were responsible for the 2016 Data Breach. This includes, for example, any and all evidence that U.S. Government or “Five Eyes” entity, affiliate, agent, employee, or contractor created or operated the “Guccifer 2.0” or “DCLeaks” profiles or any other online profile used to promote or distribute data from the 2016 Data Breach.
2. I request the opportunity to view all tangible evidence reflecting the person, persons, or entities involved in 2016 Data Breach. This request includes, but is not limited to, evidence indicating whether the breach was the result of (1) outside forces (*e.g.*, Russian agents, Pakistani agents, etc.) who hacked the servers from a remote location or (2) an individual or individuals who were present at or inside DNC facilities and copied the data onto a storage device. Communications Headquarters, or any other person or entity), then those communications should be produced. If the NSA has any evidence whatsoever that the DNC servers were hacked externally or that DNC data was leaked from an internal source, that evidence should be produced.

3. I request the opportunity to view all communications exchanged (either directly or indirectly) between Seth Conrad Rich ("Seth Rich") and/or Aaron Nathan Rich ("Aaron Rich") and the following: Julian Assange, Wikileaks, and/or any agents or representatives of Wikileaks.

The foregoing requests should be construed to cover all data, records, information, and tangible evidence in the possession or control of NSA, including information that was originally obtained by another entity such as the United Kingdom's Government Communications Headquarters.

TTP intends to use the requested information to educate the public about the prevalence of misconduct in the CIA, therefore I request a waiver of any fees. To Whom It May Concern:

On or about November 23, 2019, an interview of Asst. Attorney General Bill Demers of the National Security Division was broadcast by CBS's *60 Minutes* news magazine. See "Trump DOJ official on 2016 Russian election hack: 'They were certainly looking to hurt Hillary Clinton.'" <https://www.cbsnews.com/news/trump-doj-official-on-2016-russian-election-hack-they-were-certainly-looking-to-hurt-hillary-clinton-60-minutes/>. In the interview with correspondent Bill Whitaker, Gen. Demers alleged that Russians hacked into Democratic National Committee servers in 2016 for the purpose of hurting presidential candidate Hillary Clinton.

During one clip of the interview, an announcer elaborated on the supporting evidence that the National Security Division claimed to have in its possession:

Assistant Attorney General John Demers runs the division, along with deputies Adam Hickey and Sean Newell. DOJ attorney, Heather Alpino, worked with special counsel Mueller on the Russian indictments. All have access to the underlying intelligence, and have no doubt the Russians interfered in the 2016 election.

The clip was followed by an exchange between Mr. Whitaker and Gen. Demers:

Bill Whitaker: This really happened.

John Demers: Yes. That really happened. And we believe that if we had to we could prove that in court tomorrow using only admissible, non-classified evidence to 12 jurors.

Bill Whitaker: Do you ever expect to get the 12 Russian officials to trial?

John Demers: I would be surprised. But the purpose of the indictment isn't just that, although that's certainly one of the purposes. The purpose of this kind of indictment is even to educate the public. For a legal document, the 29-page indictment is a page-turner. It details how U.S. intelligence agencies tracked each defendant's actions, sometimes by the keystroke, revealing the fictitious names and phony emails used to infiltrate the Democrats' computers, and tracing the stolen data on its circuitous route from Washington, D.C. to Moscow.

Bill Whitaker: The information in the indictment is very detailed. You have descriptions of the Russian agents typing into their computers.

John Demers: Obviously I can't go into too much detail because I don't wanna reveal investigative methods. But the insight here is that behind every one of those keyboards is not an IP address. It's a human being.

On behalf of The Transparency Project, and as permitted by the Freedom of Information Act, I request the opportunity to view the following:

- (a) All documents, records, communications, and other tangible evidence supporting Gen. Demers's claims to *60 minutes* above, *i.e.*, about Russian involvement in obtaining the DNC emails in 2016.
- (b) All documents, records, communications, and other tangible evidence relied on by Gen. Demers, Adam Hickey, Sean Newell, and Heather Alpino in support of their conclusions that Russians were responsible for obtaining the DNC emails in 2016.
- (c) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division concerning Seth Conrad Rich and/or Aaron Nathan Rich.
- (d) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division concerning other entities or individuals who may have played a role in stealing, hacking, leaking or improperly obtaining the DNC emails in 2016.
- (e) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division indicating whether the DNC emails were hacked externally, leaked from a source inside the DNC, or otherwise transmitted to third parties such as Wikileaks. If there was one or more than one instance of hacking, leaking, or other unauthorized transmission of DNC emails in 2016, please provide details for each such incident, *e.g.*, the dates,

persons and entities involved, the data that was hacked, leaked, or otherwise transmitted, and the means by which it was hacked, leaked, or transmitted.

- (f) All documents, records, communications, and other tangible evidence in the possession or control of the National Security Division or the FBI regarding whether Debbie Wasserman-Shultz or any other member of Congress was blackmailed or extorted, whether directly or indirectly, as a result of information procured by any of the following: Imran Awan, Abid Awan, Jamal Awan, Hina Alvi, Rao Abbas, or anyone affiliated with the government of Pakistan.

The Transparency Project is a nonprofit Texas corporation and intends to use all of the information requested above to educate the public about government misconduct, therefore I request a waiver of any fees. If charges will apply, please let me know the approximate amount of such charges in advance. I can be reached by email at tyclevenger@yahoo.com if you need additional information.
