Re: FBI records concerning Seth Rich

Director Ratcliffe:

I have enclosed a May 7, 2020 letter to then-Acting DNI Richard Grenell seeking the declassification of NSA records regarding murdered Democratic National Committee employee Seth Rich. After I sent the letter, your office declassified FBI records regarding the surveillance of retired Lt. Gen. Michael Flynn during Operation Crossfire Hurricane, and it occurred to me that your office could declassify the FBI's records regarding Mr. Rich.

In the letter to Mr. Grenell, I noted considerable evidence that the FBI has been lying about its role in the Rich investigation, and lying about the records in its possession. All of the available evidence indicates that the FBI and Special Counsel Robert Mueller investigated Mr. Rich's computer and his online accounts as part of the Crossfire Hurricane investigation.

Time and again I have asked Department of Justice personnel to overrule the FBI and order the release of the records, but thus far I have not even received a response from DOJ. I realize the attorney general and U.S. Attorney John Durham are very busy, as are you, but I hope you will review and release the records at your earliest opportunity. Nothing could do more to expose the treason and treachery underlying Crossfire Hurricane.

Thank you for your consideration.

Respectfully,

Ty Clevenger
