

# **EXHIBIT 1**

UNITED STATES DISTRICT COURT  
FOR THE EASTERN DISTRICT OF TEXAS  
SHERMAN DIVISION

BRIAN HUDDLESTON,

Plaintiff,

v.

FEDERAL BUREAU OF  
INVESTIGATION and UNITED  
STATES DEPARTMENT OF JUSTICE,

Defendants.

CIVIL ACTION No. 4:20CV00447

**DECLARATION OF ISABEL MARIE LARA**

I, Isabel Marie Lara, declare as follows:

1. I am the Acting Section Chief of the Record/Information Dissemination Section (RIDS), Information Management Division (IMD), Federal Bureau of Investigation (FBI), located in Winchester, Virginia. I have held this position since April 2026. I joined the FBI in March 2005. Prior to my current position, I served as Acting Section Chief in the Enterprise Vetting Center (EVC) from March 2025 to April 2026, Assistant Section Chief of the EVC's Vetting Branch 1 from February 2025 to February 2026, Unit Chief of the EVC's Vetting Unit 4 from October 2020 to January 2025, Supervisory Research Analyst, Lead Research Analyst, and Research Analyst in the EVC's Vetting Unit 1 from March 2006 to October 2025, and Support Services Clerk in the San Antonio Division, Austin Resident Agency from March 2005 to March 2006.

2. In my official capacity as Acting Section Chief of RIDS, I supervise eight Federal Bureau of Investigation Headquarters (FBIHQ) units and two field operational service center units. RIDS' collective mission is to effectively plan, develop, direct, and manage responses to

requests for access to FBI records and information pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, as amended by the OPEN Government Act of 2007, the OPEN FOIA Act of 2009, and the FOIA Improvement Act of 2016; the Privacy Act of 1974, 5 U.S.C. § 552a; Executive Order 13526; Presidential, Attorney General, and FBI policies and procedures; judicial decisions; and Presidential and Congressional directives. My responsibilities also include the review of FBI information for classification purposes as mandated by Executive Order 13526, 75 Fed. Reg. 707 (Jan. 5, 2010) and the preparation of declarations in support of Exemption 1 claims asserted by the FBI under the FOIA. The statements contained in this declaration are based upon my personal knowledge, including information provided to me in my official capacity, and upon conclusions and determinations reached and made in accordance therewith.

3. Because of the nature of my official duties, I am familiar with the procedures followed by the FBI in responding to requests for information from its files pursuant to the provisions of the FOIA and the Privacy Act of 1974. Specifically, I am familiar with the FBI's handling of Plaintiff's FOIA request that is the subject of this litigation.

4. The FBI submits this declaration in further support of Defendants' Motion for Summary Judgment and in response to the Court's Memorandum Opinion and Order dated March 24, 2026, requiring the FBI to file a supplemental affidavit detailing the FBI's process and reasoning regarding (a) the absence of detailed explanations in the *Vaughn* Indexes as to how disclosure would harm the interests protected by the claimed statutory exemptions; and (b) its failure to include all withheld documents in its *Vaughn* Indexes; and to address (a) why multiple records in the *Vaughn* Indexes contain conclusory descriptions such as "This file contains 1 item"; and (b) to what extent the FBI believes the produced *Vaughn* Indexes offer

sufficiently narrow categorical descriptions. The Memorandum Opinion and Order also required the FBI to produce a supplemental *Vaughn* index addressing metadata on the Work Laptop which identifies: (a) the total number of files on the Work Laptop, (b) the total amount of storage taken up by the files on the Work Laptop, and (c) whether and/or how many files were downloaded from the Work Laptop to one or more external storage device(s). In addition, the FBI was ordered to follow through with its offer to produce “an amended *Vaughn* Index filling in the [] gaps to provide information about [any omitted] files and indicate that they could not be opened”, to include, what measures, if any, the FBI took to “open,” view, or otherwise restore any allegedly corrupted or unreadable files.

5. Part I provides information and details concerning the contents of the *Vaughn* Indexes, including, but not limited to, (a) how disclosure would harm interests protected by the claimed statutory exemptions, (b) contents of the FBI’s *Vaughn* Index and the conclusory descriptions, total number of files on, and the amount of storage taken up by, the files on the Work Laptop, and what measures were taken to “open,” view or otherwise restore any allegedly corrupted or unreadable files. Part II of this declaration provides the FBI’s justification for the Exemption 7 threshold and describes how the CD containing an image of Seth Rich’s personal laptop (“Personal Laptop”) and Seth Rich’s work laptop, a DVD, and a tape drive (collectively “Work Laptop”) were collected for law enforcement purposes. Part III provides the FBI’s justification for categorically denying the Personal and Work Laptops pursuant to FOIA Exemption 7(A). Part IV of this declaration addresses the FBI’s and the United States Attorney’s Office for the District of Columbia’s (USAO-DC) process for reviewing the contents of the Personal and Work Laptops. Part V of this declaration provides the FBI’s justification for categorically denying the Personal Laptop pursuant to FOIA Exemptions 7(D) and 7(E) and the

Work Laptop pursuant to FOIA Exemptions 3, 4, 7(D) and 7(E). Part VI provides justification for withholding records in full or in part pursuant to underlying FOIA Exemptions 3, 4, 6, 7(A), 7(C), 7(D) and 7(E) to protect from disclosure the contents on the Personal and Work Laptops.

**PART I: DETAILS AND INFORMATION CONCERNING CONTENTS OF THE  
VAUGHN INDEX**

**A. HOW DISCLOSURE WOULD HARM INTERESTS PROTECTED BY THE CLAIMED STATUTORY  
EXEMPTIONS**

6. Information concerning how disclosure would harm interests protected by FOIA Exemptions 3, 4, 6, 7(A), 7(C), 7(D) and 7(E) is discussed in ¶¶ 14-32, *infra*.

**B. CONTENTS OF THE FBI'S VAUGHN INDEX AND CONCLUSORY DESCRIPTIONS**

7. The FBI's *Vaughn* Index displays in a file directory list format, items contained in the "Users" folder of the Work laptop. The types of files contained in this folder include data files and documents (i.e., spreadsheets, emails, PowerPoints, etc.) and some system and application files. As previously stated in the Declaration of Shannon Hammer filed on May 6, 2025, (hereafter "Hammer Declaration," ECF No. 196-1.) at ¶ 7, there are potentially thousands of files on the Work Laptop that cannot be viewed or processed pursuant to the FOIA. Those files include operating system files, e.g., .exe (executable) files, Resilient File System (ReFS),<sup>1</sup> New Technology File System (NTFS),<sup>2</sup> and File Allocation Table (FAT).<sup>3</sup>

8. Within the index, some of the descriptions state, "This file contains 1 item." These statements are a literal representation of the directory file listing structure. The term "File" in these descriptions is referring to a folder/sub folder, and the number of items is the number of

---

<sup>1</sup> Resilient File System (ReFS) is a file system that Microsoft created for Windows operating systems. It was introduced in Windows Server 2012 and is also available in Windows 10 Pro for Workstations.

<sup>2</sup> New Technology File System (NTFS) is a file system that stores and organizes files on Windows operating systems.

<sup>3</sup> File Allocation Table (FAT) is a file system that organizes and manages data on storage devices like hard drives and USB flash drives. Many operating systems use it, including older versions of Windows.

folders or other files stored within that folder/sub folder. Listed directly below each folder/subfolder are the files and/or additional subfolders contained therein. The size of the main/sub folders that house additional items is identified as “N/A.” This is because the size information is displayed in the column next to each individual item housed within the main and/or sub folders. See example below:

<b>Folder/Subfolder and/or File Name (1<sup>st</sup> Layer)</b>	<b>Folder/Subfolder and/or File Name (2<sup>nd</sup> Layer)</b>	<b>Folder/Subfolder and/or File Name (3<sup>rd</sup> Layer)</b>	<b>Size</b>
Main file 1			N/A
	Sub Folder 1		N/A
		File 1	3 KB
Main file 2			N/A
	File 2		4 KB

To ensure that it is evident which files are mains/sub folders, the FBI has revised the wording of these descriptions within its Index. (Ex. A.)

C. METADATA AND MEASURES TO OPEN, VIEW OR OTHERWISE RESTORE ANY ALLEGEDLY  
CORRUPTED OR UNREADABLE FILES

9. The Work Laptop contains 217,794 items including, but not limited to, operating system/application files (.exe, ReFS, NTFS and FAT), text files, image files, documents (created in Microsoft Edge, Excel, OneNote, PowerPoint, Word, etc.), file folders, and unpartitioned/unallocated space totaling 508,966,545,209 Bytes (B) or 508,966,545.209 Kilobytes (KB) or 508.966545209 Gigabytes (GB).

10. FBI RIDs personnel have taken additional steps to obtain and use other software to access and view those items previously identified on the Index as being unable to be accessed and viewed. In addition, updates have been made to the descriptions of those entries on the Index. Concerning the FBI’s ability to determine whether and/or how many files were

downloaded from the Work Laptop to one or more external storage devices, FBI RIDs consulted personnel outside of the FBI's IMD and obtained the attached Declaration from William Wickman, Acting Supervisory Special Agent of the Philadelphia Regional Computer Forensics Laboratory, in the FBI's Philadelphia Division. (Ex. B.)

**PART II: JUSTIFICATION FOR NONDISCLOSURE UNDER THE FOIA EXEMPTION 7 THRESHOLD**

11. Before an agency can invoke any of the harms enumerated in Exemption (b)(7), it must demonstrate the records or information at issue was compiled for law enforcement purposes. Pursuant to 28 U.S.C. §§ 533 and 534, Executive Order 12333 as implemented by the Attorney General's Guidelines for Domestic FBI Operations (AGG-DOM), and 28 C.F.R. § 0.85, the FBI is the primary investigative agency of the federal government with authority and responsibility to investigate all violations of federal law not exclusively assigned to another agency, to conduct investigations and activities to protect the United States and its people from terrorism and threats to the national security, and to further the foreign intelligence objectives of the United States. Under this investigative authority, both the Personal Laptop and Work Laptop were collected for the following law enforcement purpose. As previously set forth in the Eighth Declaration of Michael G. Seidel, filed on February 8, 2024, (hereafter Eighth Seidel Declaration, ECF No. 148-1.) at ¶ 4, the Personal Laptop was collected in furtherance of the FBI's role in the Special Counsel's Office (SCO) investigation and related investigations. The Work Laptop was also collected in furtherance of the FBI's role in investigations derived from the SCO. These materials were collected to document the FBI's investigation of potential crimes and threats to national security; thus, the FBI determined they were compiled for law enforcement purposes.

**PART III: CATEGORICAL DENIAL PURSUANT TO EXEMPTION 7(A): PENDING LAW ENFORCEMENT PROCEEDINGS**

12. The FBI hereby reasserts verbatim the information set forth in Parts II and III of the Eighth Seidel Declaration. (ECF No. 148-1, pages 3-8.)

**PART IV: FBI AND USAO-DC'S REVIEW OF THE PERSONAL AND WORK LAPTOPS' CONTENTS**

13. As previously set forth in the Hammer Declaration at ¶ 5, the FBI conducted a document-by-document review of the contents of the Work Laptop, while the USAO-DC conducted a document-by-document review of the contents of the Personal Laptop and provided the types of records and functional categories. The FBI also provided information on the types of records contained on the Work Laptop and information on the functional categories. (ECF No. 196-1.)

**PART V: CATEGORICAL DENIAL OF THE WORK LAPTOP AND PERSONAL LAPTOP PURSUANT TO FOIA EXEMPTIONS 3, 4, 7(D) AND/OR 7(E)**

14. In addition to categorically denying the Work Laptop pursuant to 7(A), the FBI also categorically denies the Work Laptop pursuant to FOIA Exemptions 3, 4, 7(D) and 7(E) and the Personal Laptop pursuant to FOIA Exemptions 7(D) and 7(E).

**A. Exemption 3: Information Protected by Statute**

Exemption 3 exempts from disclosure information which is “specifically exempted from disclosure by statute . . . if that statute (A)(i) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue; or (A)(ii) establishes particular criteria from withholding or refers to particular types of matters to be withheld.” 5 U.S.C. § 552(b)(3). The OPEN FOIA Act of 2009 established an additional requirement that any statute “enacted after the date of enactment of the OPEN FOIA Act of 2009, [must] specifically cite[] to this paragraph” to qualify under Exemption 3.

<p>1. <i>Information Specifically Exempted by Cybersecurity Information Sharing Act of 2015, 6 U.S.C. § 1504(d)(3)</i></p>	<p>In December 2015, Congress enacted the Cybersecurity Act of 2015. Title I of the Cybersecurity Act of 2015, 6 U.S.C. §§ 1500-1510, entitled the Cybersecurity Information Sharing Act of 2015 (CISA 2015) provides increased authority for cybersecurity information sharing between and among the private sector; state, local, tribal, and territorial governments; and the Federal Government.<sup>4</sup> The purpose of the CISA 2015 is to encourage robust sharing of useful cybersecurity information among all types of entities—private, federal, state, local, territorial, and tribal. CISA 2015 also balances its authorization to share relevant cybersecurity information with the need to safeguard privacy.</p> <p>CISA 2015 provides that cyber threat indicators or defensive measures shared with the federal government under CISA 2015 are exempt from disclosure under the Freedom of Information Act. Pursuant to 6 U.S.C. § 1504(d)(3), a cyber threat indicator<sup>5</sup> or defensive measure<sup>6</sup> shared with the Federal Government under this subchapter shall be—deemed voluntarily shared information and exempt from disclosure under section 552 of title 5 and any state, tribal, or local provision of law requiring disclosure of information or records; and (B) withheld, without discretion, from the public under section 552(b)(3)(B) of Title 5 and any state, tribal, or local provision of law requiring disclosure of information or records. The FBI asserts Exemption 3 in conjunction with</p>
--	---

<sup>4</sup> Section 1503(c)(1) authorizes both the sharing and receipt of cyber threat indicators and defensive measures.

<sup>5</sup> The term “cyber threat indicator” is defined in 6 U.S.C. § 1501(6) as: information that is necessary to describe or identify— (A) malicious reconnaissance, including anomalous patterns of communications that appear to be transmitted for the purpose of gathering technical information related to a cybersecurity threat or security vulnerability; (B) a method of defeating a security control or exploitation of a security vulnerability; (C) a security vulnerability, including anomalous activity that appears to indicate the existence of a security vulnerability; (D) a method of causing a user with legitimate access to an information system or information that is stored on, processed by, or transiting an information system to unwittingly enable the defeat of a security control or exploitation of a security vulnerability; (E) malicious cyber command and control; (F) the actual or potential harm caused by an incident, including a description of the information exfiltrated as a result of a particular cybersecurity threat; (G) any other attribute of a cybersecurity threat, if disclosure of such attribute is not otherwise prohibited by law; or (H) any combination thereof.

<sup>6</sup> The term “defensive measure” is defined in 6 U.S.C. § 1501(7)(A) as: an action, device, procedure, signature, technique, or other measure applied to an information system or information that is stored on, processed by, or transiting an information system that detects, prevents, or mitigates a known or suspected cybersecurity threat or security vulnerability. 6 U.S.C. § 1501(7)(B) lists certain measures that are excluded from the definition of “defensive measure.”

	<p>CISA 2015 to protect the information and contents (collectively) of the Work Laptop provided to the FBI on behalf of the Democratic National Committee (DNC),<sup>7</sup> to assist with the FBI’s investigation into the hacking of the computer networks of the DNC. The Work Laptop at issue herein is one used by former DNC Staffer, Seth Rich, while performing his roles and responsibilities for the organization.</p>
<p><b>B. Exemption 4: Trade Secrets and Commercial Information</b></p> <p>Exemption 4 of the FOIA protects “trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential.” 5 U.S.C. § 552(b)(4).</p>	
<p>1. <i>Commercial Information</i></p>	<p>This exemption is intended to protect the interests of both the government and submitters of information. Its very existence encourages submitters to voluntarily furnish useful commercial or financial information to the government and provides the government with an assurance that required submissions will be reliable. The exemption also affords protection to those submitters who are required to furnish commercial or financial information to the government by safeguarding them from the competitive disadvantages that could result from disclosure.</p> <p>For purposes of Exemption 4, commercial and financial information is considered confidential when it is 1) both customarily and actually treated as private by its owner; and 2) provided to the government with an assurance of privacy. In reviewing the FBI’s records, the FBI located in its evidence holdings a laptop belonging to the DNC. To determine whether the Work Laptop and its contents qualified for protection pursuant to Exemption 4, the FBI contacted the DNC legal counsel to establish if the information located by the FBI was customarily treated as private; and whether it provided this information to the FBI with an assurance of privacy. The DNC advised that the content of the Work Laptop includes information that it would not customarily, or in any manner, release to the public. The DNC further advised the FBI that it objects to the release of the content of this computer. Based on the proprietary nature of the contents of the Work Laptop and the detriment to the DNC’s commercial interest that public</p>

<sup>7</sup> The Democratic National Committee is the governing body of the Democratic Party in the United States.

	release would entail, the confidential nature of the information that would not customarily be released, as well as the DNC’s intent to share the computer with the FBI under an implied assurance of confidentiality, the FBI exempted the content of the Work Laptop pursuant to Exemption 4.
--	---

**C. Exemption 7(D) – Confidential Source Information**

Exemption 7(D) protects “records or information compiled for law enforcement purposes” when disclosure:

could reasonably be expected to disclose the identity of a confidential source, including a State, local or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of a record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source.

5 U.S.C. § 552(b)(7)(D).

Numerous confidential sources report to the FBI on a regular basis. They provide information under an express assurance of confidentiality and are “informants” within the common meaning of the term. Others are interviewed and provide information under an implied assurance of confidentiality (i.e., under circumstances from which an assurance of confidentiality may be inferred). In either situation, these sources are considered to be confidential because they furnish information only with the understanding that their identities and the information they provide will not be divulged outside the FBI (outside of the investigative use of the information to, for example, set leads). Information provided by sources is often singular in nature and, if released, could reveal their identities. The FBI has learned through experience that sources assisting, cooperating with, and providing information to the FBI must be free to do so without fear of reprisal. The FBI has also learned that sources must be free to furnish information to the FBI with complete candor and without the understandable tendency to hedge or withhold information because of fear that their cooperation with the FBI will later be made public. Sources providing information to the FBI should be secure in the knowledge that their assistance and their identities will be held in confidence.

The release of a source’s identity and/or information provided under an implied or express assurance of confidentiality, would forever eliminate that source as a future means of obtaining information. In addition, when the identity of one source and/or information provided by them is revealed, that revelation has a chilling effect on the

<p>activities and cooperation of other sources. Such a result undermines one of the FBI’s most important means of collecting information and could thereby severely hamper law enforcement efforts to detect and apprehend individuals engaged in the violation of federal criminal laws.</p>	
<p><i>1. Information Provided by a Confidential Source Pursuant to an Implied Assurance of Confidentiality</i></p>	<p>The FBI asserted FOIA Exemption (b)(7)(D), to protect the content of the information provided by a third party under an implied assurance of confidentiality. The information was provided by this third party to aid the FBI in its investigation into the hacking of the computer networks of the DNC. The FBI considered 1) the singularity of the information provided and 2) the proximity to any potential subjects of investigative interest. Future sources, including those from other victim companies involved in computer intrusion and hacking investigations, would be less likely to provide information if they knew the information they provided would be publicly disclosed.</p> <p>The disclosure of the Work Laptop contents (as a whole) could have disastrous consequences, including economical reprisal (deprivation of business opportunities and monetary donations), potential legal repercussions, as well as placing the company/entity in a vulnerable position for additional cyber intrusions.</p> <p>Considering the circumstances described above, it is reasonable to infer that the third party cooperated with the FBI only because it expected the information provided would be held in confidence. Therefore, the FBI properly protected the information provided on behalf of the DNC pursuant to Exemption 7(D).</p>
<p><i>2. Name and Identifying Information of, and Information Provided by, a Local Law Enforcement Employee under an Implied Assurance of Confidentiality</i></p>	<p>The FBI asserted FOIA Exemption 7(D), to withhold the name, identifying information of, and specific information provided (contents of the CD image of Seth Rich’s personal laptop) by a local law enforcement employee under an implied assurance of confidentiality. Certainly, the FBI does not infer that all state or local law enforcement authorities who cooperate in federal investigations do so with expectations of confidentiality. However, under some circumstances such an expectation may be inferred. Here, a local law enforcement employee provided specific detailed information of value to the FBI, which is singular in nature, concerning a subject thought to be of investigative interest. The FBI reasonably inferred this employee provided this information to the FBI with an expectation that his/her involvement in the investigation,</p>

	<p>and the information he/she provided, would remain confidential because disclosure of the information and assistance provided would reveal specific non-public details of the agency's law enforcement techniques, and non-public details about law enforcement techniques pertaining to a specific ongoing investigation.</p> <p>The FBI relies heavily on assistance from its state and local law enforcement partners in pursuing its law enforcement and intelligence gathering missions. The disclosure of the information on the Personal Laptop could have disastrous consequences in future information sharing by local law enforcement. This harm is exacerbated here as the local law enforcement shared information that was being used on a pending investigation and would not have shared the information unless it was going to be kept in confidence. Release of the source provided information (i.e., Seth Rich's personal laptop) would deter other law enforcement agencies from sharing information in the future because it could 1) jeopardize the agency's investigative techniques and procedures; 2) discredit the local law enforcement authority with current and future confidential sources, and greatly hinder its ability to recruit its own valuable sources; 3) subject the agency's employee(s) to violent reprisal; and 4) when sharing information regarding pending investigations, it could jeopardize the local agency's investigative efforts. If this information were released to the public under FOIA, the local law enforcement agency would be less likely to freely share sensitive information with the FBI in the future out of fear that its decision to do so could negatively impact its investigation. This, in turn, would also harm the FBI's ability to seek valuable support and/or assistance from this and other law enforcement agencies during joint investigations because such agencies would hesitate to provide assistance to the FBI.</p> <p>Accordingly, for the reasons described above, it is reasonable for the FBI to infer the law enforcement employee provided the CD containing the image of Seth Rich's Personal Laptop to the FBI when an assurance of confidentiality can be implied. Thus, the FBI determined this information is exempt from disclosure pursuant to FOIA Exemption 7(D).</p>
--	--

**D. Exemption 7(E): Investigative Techniques and Procedures**

Exemption 7(E) protects “records of information compiled for law enforcement purposes” that would disclose techniques and procedures for law enforcement investigations or prosecutions or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. 5 U.S.C. § 552(b)(7)(E).

<p>1. <i>Collection and Analysis of Information</i></p>	<p>Within the records responsive to Plaintiff’s requests, the FBI applied Exemption 7(E) to non-public investigative techniques and procedures utilized by the FBI to carry-out its law enforcement function, and to non-public details about techniques and procedures that are otherwise known to the public</p> <p>The FBI asserted FOIA Exemption 7(E) to withhold the non-public methods it uses to collect and analyze information it obtains for investigative purposes. The release of this information would disclose the identity of methods used in the collection and analysis of information, including how and from where the FBI collects information. Such disclosures would enable subjects of FBI investigations to circumvent these and similar techniques, thus diminishing their usefulness. This, in turn, would facilitate the ability of investigative subjects to accumulate information regarding the circumstances under which specific methods were used and the utility of the information obtained. Release of this type of information would enable criminals to educate themselves about the methods employed to collect and analyze information and therefore, allow them to take countermeasures to circumvent the effectiveness of these methods and continue to engage in activities that violate the law.<sup>8</sup> Accordingly, the FBI properly withheld this information pursuant to FOIA Exemption 7(E).</p>
---	---

<sup>8</sup> For example, a criminal who is aware the FBI has collected an evidentiary item containing information about their activities would likely change their activities and/or destroy evidence to circumvent the law.

## PART VI: ASSERTION OF UNDERLYING EXEMPTIONS UNDER THE FOIA

15. The information responsive to Plaintiff's request has been denied in its entirety pursuant to FOIA Exemptions 3, 4, 7(A), 7(D) and 7(E). In light of the D.C. Circuit's ruling in *Maydak v. U.S. Dep't. of Just.*, 218 F.3d 760 (D.C. Cir. 2000), *reh'g en banc* denied, No. 98-5492 (D.C. Cir. Oct. 30, 2000), the FBI also asserted underlying FOIA Exemptions 3, 4, 6, 7(A), 7(C), 7(D) and/or 7(E) to protect in full or in part the individual contents of both the Personal and Work Laptops. In the following paragraphs, the FBI justifies its application of these underlying exemptions to the extent public disclosure and discussion of the applicable exemptions will not adversely affect the active, ongoing investigations by revealing the nature, scope, focus, and conduct of the investigations. At this time, public disclosure of more detailed information on the application of exemptions would undermine the very interests the FBI seeks to protect through its categorical assertion of FOIA Exemptions 3, 4, 6, 7(A), 7(C), 7(D) and 7(E).

### EXEMPTION 7(A): PENDING LAW ENFORCEMENT PROCEEDING

16. As discussed in the Eighth Seidel Declaration at ¶ 12, Exemption 7(A) exempts from disclosure information which is "specifically exempted from disclosure by statute ... if that statute (A)(i) requires that the matters be withheld from the public in such manner as to leave no discretion on the issue; or (A)(ii) establishes particular criteria from withholding or refers to particular types of matters to be withheld."

17. The FBI hereby reasserts verbatim Part II, ¶¶ 6-11 and Part III, ¶¶ 13-18 of the Eighth Seidel Declaration to protect from disclosure both categorically and individually, the contents of the Personal and Work Laptops. Specifically, the FBI asserts Exemption 7(A) which pertains to a pending law enforcement investigation related to the USAO-DC homicide

investigation and to pending law enforcement investigations related to the FBI investigations derived from the SCO.

EXEMPTION 3: INFORMATION PROTECTED BY STATUTE

18. As discussed in ¶ 14 A, *supra*, Exemption 3 exempts information “specifically exempted from disclosure by statute . . . if that statute (A)(i) requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue; or (A)(ii) establishes particular criteria from withholding or refers to particular types of matters to be withheld.” 5 U.S.C. § 552(b)(3).

*Information Specifically Exempted by Cybersecurity Information Sharing Act of 2015, 6 U.S.C. § 1504(d)(3)*

19. As discussed in ¶ 14 A.1, *supra*, the FBI asserts Exemption 3 pursuant to CISA 2015 to protect the information and contents of the Work Laptop provided to the FBI by the DNC to assist with the FBI’s investigation into the hacking of the DNC computer networks, both categorically and individually, based on the FBI’s document-by-document level review. Release of the information would violate the non-disclosure provisions of the Act. Furthermore, release of CISA exempted information—threat indicators and/or defensive measures—would negatively affect the ability of the FBI and other federal government agencies to investigate the increase of cyber intrusions against any individuals, organizations and/or entities by revealing crucial information used by law enforcement to identify, track, and prosecute criminals by allowing them to identify government techniques and develop countermeasures to avoid detection.

EXEMPTION 4: TRADE SECRETS AND COMMERCIAL OR FINANCIAL INFORMATION

20. As discussed in ¶ 14 B, *supra*, Exemption 4 exempts “trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential.” 5 U.S.C. § 552(b)(4).

21. As discussed in ¶ 14 B.1, *supra*, the FBI asserts Exemption 4 to protect from disclosure categorically and individually, based on the FBI’s document-by-document level review, the individual contents of the Work Laptop. Based on the proprietary nature of the contents of the Work Laptop and the detriment to its commercial interest that public release would cause, the DNC’s counsel informed the FBI it would not have provided the Work Laptop originally without a belief the FBI would hold the laptop and its contents in confidence. Moreover, the DNC was a victim that was attempting to aid the FBI in its investigation into the hacking of the DNC computer networks. As such, the FBI determined, both from the circumstances at the time under which Seth Rich’s Work Laptop was provided, and based on confirmation provided by the DNC, that this information was provided to the FBI with an expectation it would be kept confidential and is, therefore, exempt pursuant to Exemption 4.

EXEMPTIONS 6 AND 7(C): UNWARRANTED INVASION OF PERSONAL PRIVACY

22. Exemption 6 exempts from disclosure “personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.” 5 U.S.C. § 552(b)(6). All information that applies to a particular person falls within the scope of Exemption 6.

23. Exemption 7(C) similarly exempts from disclosure “records or information compiled for law enforcement purposes [when disclosure] could reasonably be expected to constitute an unwarranted invasion of personal privacy.” 5 U.S.C. § 552(b)(7)(C).<sup>9</sup>

---

<sup>9</sup> The practice of the FBI is to assert Exemption 6 in conjunction with Exemption 7(C). Although the balancing test for Exemption 6 uses a “would constitute a clearly unwarranted invasion of personal privacy” standard and the test for Exemption 7(C) uses the lower standard of “could reasonably be expected to constitute an unwarranted invasion of personal privacy,” the analysis and balancing required by both exemptions are sufficiently similar to warrant a consolidated discussion. The privacy interests are balanced against the public’s interest in disclosure under both exemptions.

24. When withholding information pursuant to these two exemptions, the FBI is required to balance the privacy interests of the individuals mentioned in these records against any public interest in disclosure. In asserting these exemptions, each piece of information was scrutinized to determine the nature and strength of the privacy interest of every individual whose name and/or identifying information appears in the records at issue here. When withholding the information, the individual's privacy interest was balanced against the public's interest in disclosure. For purposes of these exemptions, a public interest exists only when information about an individual, such as the individual's name, or other identifying information<sup>10</sup> would shed light on the FBI's performance of its mission to the American people and uphold the Constitution of the United States, and its function to protect the United States from terrorist attack; protect the United States against foreign intelligence, espionage, and nefarious cyber operations; combat significant criminal cyber activity, public corruption, transnational criminal enterprises, white-collar crime, and violent crime; and protect civil rights. Considering the contents of Seth Rich's Work Laptop concerns information that was created in his role as an employee of the DNC, it would not shed light on the FBI's performance of its mission to the American people or to uphold the Constitution and perform its various functions. In each instance wherein information was withheld pursuant to Exemptions 6 and 7(C), the FBI determined that the individuals' privacy interests outweighed any public interest in disclosure.

---

<sup>10</sup> Hereafter, identifying information includes the following, but is not limited to, dates and places of birth; ages; gender; social security numbers; mailing, residential, and business addresses; work, residential and cellular telephone numbers; email addresses; IP addresses; passwords; political party affiliation; education and employment history.

25. Furthermore, considering privacy concerns can be obviated once an individual is deceased.<sup>11</sup> When processing FOIPA requests, the FBI takes several steps to ascertain the current life/death status of the individuals whose names are withheld. The FBI used the birth date and/or the date of the investigation to determine whether an individual is living or deceased, to the extent either or both pieces of information are discernable from the file. The date of birth was used to apply the judicially recognized “100-year rule,” i.e., if the individual was born more than 100 years ago, the FBI presumes that he or she is dead, and the name is released. The FBI also used institutional knowledge gained from prior FOIA requests or internal records. By using institutional knowledge, the FBI can identify with sufficient certainty the life/death status of certain individuals. If the FBI was unable to determine the life/death status of an individual using these methods, the name of the individual was withheld pursuant to Exemptions 6 and 7(C), when it found disclosure would constitute an unwarranted invasion of those individuals’ privacy should they still be living, and no public interest would be served in releasing the names.

26. Regarding public interest that would override Seth Rich’s privacy interests, the FBI concluded that disclosing personal information about Seth Rich within the contents of the Personal and Work Laptops maintained in the FBI’s investigative file would not significantly increase the public’s understanding of the operations and activities of the FBI. Accordingly, the FBI properly protected the individuals’ privacy interests pursuant to FOIA Exemptions 6 and 7(C).

---

<sup>11</sup> In some circumstances, surviving relatives of a deceased individual retain privacy interests in their information, even after the individual’s death. *See generally, National Archives v. Favish*, 124 S. Ct. 1570 (2004).

*Names and Other Identifying Information of Third Parties Merely Mentioned*

27. The FBI asserted FOIA Exemptions 6 and 7(C) to withhold the names and other identifying information of third parties who were merely mentioned in the contents of the material located on the Personal and Work Laptops responsive to Plaintiff's requests. The FBI has information about third parties in its files because such individuals were tangentially mentioned within the contents of the files and documents contained on the laptops provided and collected in conjunction with FBI investigative efforts. However, these individuals were not of investigative interest to the FBI. These third parties maintain substantial and legitimate privacy interests in not having their information disclosed and thus, connected to FBI law enforcement matters. Considering the FBI is an investigative and intelligence agency, disclosure of these third parties' names and other identifying information in connection with FBI records carries an extremely negative connotation. Disclosure of their identities would subject these individuals to possible harassment or criticism. Regarding public interest that would override privacy interests, the FBI concluded that disclosing information about individuals who were merely mentioned within the contents of the Personal and Work Laptops maintained in the FBI's investigative file would not significantly increase the public's understanding of the operations and activities of the FBI. Accordingly, the FBI properly protected these individuals' privacy interests pursuant to FOIA Exemptions 6 and 7(C).

EXEMPTION 7(D) – CONFIDENTIAL SOURCE INFORMATION

28. As discussed in ¶ 14 C, *supra*, Exemption 7(D) exempts from disclosure “records or information compiled for law enforcement purposes” when disclosure:

could reasonably be expected to disclose the identity of a confidential source, including a State, local or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of a record or information compiled by a criminal law enforcement authority in the course of a

criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source.

5 U.S.C. § 552(b)(7)(D).

29. As discussed in ¶¶ 14 C.1- 14 C.2, *supra*, the FBI asserts Exemption 7(D) to protect from disclosure the contents of the Personal and Work Laptops, both at a categorical level and on a document-by-document review level.

#### EXEMPTION 7(E): INVESTIGATIVE TECHNIQUES AND PROCEDURES

30. As discussed in ¶ 14 D, *supra*, Exemption 7(E) exempts from disclosure “records of information compiled for law enforcement purposes” that would disclose techniques and procedures for law enforcement investigations or prosecutions or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. 5 U.S.C. § 552(b)(7)(E).

31. As discussed in ¶ 14 D.1, *supra*, the FBI asserts Exemption 7(E) to protect from disclosure, at both a categorical and document-by-document level, the individual contents of the Personal and Work Laptops.

#### FORESEEABLE HARM STANDARD

32. The FOIA Improvement Act of 2016 generally adopted the foreseeable harm standard and made it statutory, advising that agencies shall withhold information under the FOIA only if the agency reasonably foresees that disclosure would harm an interest protected by an exemption or disclosure is prohibited by law. Accordingly, the FBI’s analysis of potentially responsive records under the FOIA is a two-part process. First, the FBI determines whether a record or a portion of a record is exempt pursuant to one or more FOIA exemptions. Second, if the record or portion thereof is exempt pursuant to one or more FOIA exemptions, the FBI then considers whether foreseeable harm would result from the disclosure of the record or portion

thereof. For the withheld records at issue here, the FBI conducted this two-part analysis and only withheld records where it determined the withheld record met both criteria. The FBI's foreseeable harm is more fully described within each of the above exemption justification categories.<sup>12</sup>

### **SEGREGABILITY**

33. Following its document-by-document review, the FBI determined that all material was covered by one or more of the cited FOIA exemptions; therefore, there was no information that could be reasonably segregated for release without triggering foreseeable harm to one or more of the cited FOIA exemptions.

### **CONCLUSION**

34. The FBI has determined that the Personal Laptop and the Work Laptop are exempt from disclosure under Exemption 7(A) because disclosure of any information from the laptops could reasonably be expected to interfere with ongoing investigations as well as pending and prospective prosecutions. The FBI also determined that the Personal Laptop is exempt from disclosure under FOIA Exemptions 7(D) and 7(E) (respectively 5 U.S.C. §§ (b)(7)(D), and (b)(7)(E)) because the information could reasonably be expected to disclose the identity of a confidential source and the information he/she provided and would disclose techniques and procedures for law enforcement investigations. The FBI further determined that the Work Laptop is exempt from disclosure under FOIA Exemptions 3, 4, 7(D) and 7(E) (respectively 5 U.S.C. §§ 552(b)(3), (b)(4), (b)(7)(D), and (b)(7)(E)) because disclosure of the information would reveal statutorily protected information, would reveal confidential trade secrets and commercial information, could reasonably be expected to disclose the identity of a confidential source and

---

<sup>12</sup> 5 U.S.C. § 552(a)(8)(A)(i)(II) does not impose a requirement to articulate harm for Exemption (b)(3).

the information he/she provided, and would disclose techniques and procedures for law enforcement investigations. While the FBI relies on FOIA Exemptions 3, 4, 7(A), 7(D) and 7(E) (respectively 5 U.S.C. §§ 552(b)(3), (b)(4), (b)(7)(A), (b)(7)(D), and (b)(7)(E)) to withhold this information in its entirety, the FBI also determined that underlying FOIA Exemptions 6, 7(C), 7(A), 7(D) and 7(E) (respectively 5 U.S.C. §§ (b)(6), (b)(7)(A), (b)(7)(C), (b)(7)(D), and (b)(7)(E)) apply to information contained on the Personal Laptop and FOIA Exemptions 3, 4, 6, 7(A), 7(C), 7(D) and 7(E) (respectively 5 U.S.C. §§ 552(b)(3), (b)(4), (b)(6), (b)(7)(A), (b)(7)(C), (b)(7)(D), and (b)(7)(E)) apply to information contained on the Work Laptop. Having applied categorically FOIA Exemptions 3, 4, 7(A), 7(D) and/or 7(E) and the underlying FOIA Exemptions 3, 4, 6, 7(C), 7(A), 7(D) and/or 7(E) to the Personal and the Work Laptops, the FBI determined that there is no non-exempt information subject to the FOIA that can be reasonably segregated from exempt information and released to Plaintiff.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct and that Exhibit A and B attached hereto are true and correct copies.

FOIA WIF:	Withheld in full pursuant to FOIA Exemptions

<sup>1</sup> This represents the total number of Folders, Subfolders and Files reviewed in the "Users" folder of the Work Laptop. The total size of these items equates to 2,225,619,000 B or 2,225,619 KB or 2.225619 GB.

<sup>2</sup> Resilient File System (ReFS) is a file system that Microsoft created for Windows operating systems. It was introduced in Windows Server 2012 and is also available in Windows 10 Pro for Workstations. New Technology File System (NTFS) is a file system that stores and organizes files on Windows operating systems. File Allocation Table (FAT) is a file system that organizes and manages data on storage devices like hard drives and US flash drives. Many operating systems use it, including older versions of Windows.

**DECLARATION OF WILLIAM R. WICKMAN**

I, William R. Wickman, declare as follows:

1. I am the Acting Supervisory Special Agent of the Philadelphia Regional Computer Forensics Laboratory, Philadelphia Division, Federal Bureau of Investigation (FBI), located in Philadelphia, Pennsylvania. I have been a certified FBI Digital Forensic Examiner since 2016. I joined the FBI in September 2005, and prior to my current position, I was assigned to the Violent Gangs Task Force. Prior to joining the FBI, I served as a Special Agent with the United States Customs Service and was assigned to work international drug smuggling investigations.

2. The statements contained in this declaration are based upon my personal knowledge, upon information provided to me in my official capacity, and upon conclusions and determinations reached and made in accordance therewith.

3. I submit this declaration to demonstrate that the FBI has complied to the fullest extent possible with the Court's Memorandum Opinion and Order dated March 24, 2025 (ECF

No. 214), the Cour’s Memorandum Opinion and Order dated November 28, 2023 (ECF No. 136) and its Amended Memorandum Opinion and Order dated August 15, 2024 (ECF No. 176) collectively requiring the FBI to conduct and complete a document-by-document review of the information it possesses on the compact disk (CD) containing the image of Seth Rich’s personal laptop (hereinafter as “Personal Laptop”), Seth Rich’s Work Laptop, the DVD and the tape drive that is responsive to Plaintiff’s FOIA requests and to either (1) produce *Vaughn* Indexes addressing the information it possesses on the compact disk containing images of Seth Rich’s personal laptop, Seth Rich’s Work Laptop, the DVD, and the tape drive that is responsive to Plaintiff’s FOIA requests;<sup>1</sup> or (2) file a motion for summary judgment regarding the information it possesses on the compact disk containing images of Seth Rich’s personal laptop, Seth Rich’s Work Laptop, the DVD, and the tape drive that is responsive to Plaintiff’s FOIA requests.

4. Based on my professional background, knowledge, and familiarity with this case, the FBI maintains a forensic image of the Work Laptop. A forensic image is a bit-for-bit copy of the contents of the Work Laptop hard drive, capturing every addressable sector of the drive, not just active files. That forensic image is a sound replica that preserves the original evidence without alteration. Part of the forensic imaging process included a directory file listing and verification hashing to ensure integrity of the original evidence. The forensic image is an E01 file, which cannot be natively viewed because it is a containerized forensic format. Forensic software and tools are required to parse out the data from the E01 file.

5. Based on my training and experience, I know that neither Windows or macOS natively generate a file that records or logs file transfer activity from a computer to an external storage device. Absent enterprise auditing tools or third-party monitoring software, no such file

---

<sup>1</sup> The *Vaughn* Index must address the metadata contained within Seth Rich’s work laptop.

would exist on the Work Laptop. Therefore, the FBI cannot produce a record that shows whether there were transfers to external media or what the contents of the transfers may have been.

6. Moreover, determining whether files were downloaded from a laptop to an external storage device is extremely difficult from a digital forensics perspective. Before any analysis could begin, the forensic image would first need to be restored from its archived state and processed using forensic software. The analysis itself, determining whether files were transferred to an external storage device, would require extensive time and effort and would likely be inconclusive.

7. Because the Work Laptop does not contain a file (record) that identifies transfers to external storage media and discloses the contents of the transfer, any possible result from the time-consuming forensic analysis would require the FBI to create new record(s) such as taking screen shots or cutting and pasting information from one document into another or creating entirely new records from existing records, none of which the FBI would have otherwise had before.

8. By way of further explanation, operating systems do not natively log file copy events between an internal storage and an external device. Operating systems do not have a default audit trail to track whether files were copied from the device to USB devices. Operating systems do retain file system metadata, specifically Modified, Accessed, and Created timestamps (MAC). MAC times can reflect file activity on the source or destination drive but not a file transfer itself. MAC times were provided in the file directory listing.

9. Universal Serial Bus (USB) and external device artifacts are limited. Artifacts such as the Windows registry USBSTOR keys, setup API logs, and event logs, if they are captured, may indicate a device was connected and the approximate timeframe of that

connection. But operating system metadata is insufficient, by itself, to determine whether and/or how many files were copied to one or more external storage devices. These artifacts are not useful in this instance because we do not have an identified external device that was connected. So these artifacts will not show what files were accessed or copied, the number of files transferred, or whether a transfer occurred at all.

10. Even if an external device were identified, external devices often lack file system journals to review.

11. In addition, the method by which files are copied to an external device can add additional levels of complexity. Files can be transferred in ways that leave little to no forensic footprint. As described above, operating systems do not natively log file copy events between an internal storage and an external device (native operating system copy and paste). There are multiple transfer methods besides the native operating system's copy and paste. Copying can be performed at the command line, third party tools, in ZIP files, in encrypted containers, direct disk access, or using imaging tools, just to name a few. These alternative transfer methods bypass traditional operating system artifacts and generate inconsistent or no logs at all.

12. Concerning corrupted files, file corruption can range from minor file inconsistencies to damage affecting the file's data. Recovery efforts depend entirely on the type and extent of the file corruption. While some minor corruption can be repaired with recovery tools, more complex data corruption requires manual reconstruction which is extremely time consuming and requires specialized expertise. Even if recovery is successful, verifying the accuracy of the repaired file may not be possible. A repaired file is not the original record. A repaired file is a newly generated file produced through deliberate intervention. In essence, the

forensic examiner is creating a new file which did not exist in its repaired form on the original evidence.

13. The Vaughn indices submitted in this case omit system files. System files are not created by the government or the computer user. System files are generated by the operating system or by software installations and are common to all computers. Unlike user-created files such as .docx, .xlsx, and .pdf, system files are not practically reviewable in the common understanding of the term. While it may be theoretically possible to open certain system files, doing so typically involves specialized software and the contents would not yield information susceptible to a meaningful FOIA exemption analysis.

14. In summary, operating systems do not natively log file transfer activity to external media. Determining if files were transferred from the Work Laptop to an external drive, and if so what those files were, is not achievable through examination of the Work Laptop alone.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed this 22 day of May 2026.

William R. Wickman  
Special Agent  
Philadelphia Division  
Federal Bureau of Investigation  
Philadelphia Pennsylvania
